

Škoda Fabia

Previous generations of the Fabia were known for their extra spaciousness, practicality and great value for money. The fourth-generation Fabia retains all the strengths of previous models while adding trump cards of its own. Thanks to the new platform, it can be fitted with advanced driver-assistance systems that have generally been the preserve of higher-end cars, including Side Assist and the Travel Assist set of systems. These and many other assists, along with the new LED lights, make the fourth generation the safest and most desirable Fabia ever.

Engines

Current as of July 2023

	1.0 MPI 59 kW	1.0 TSI 70 kW	1.0 TSI 81 kW	1.5 TSI 110 kW
Transmission	5-MAN	5-MAN	6-MAN & 7-DSG	7-DSG
Fuel consumption	4.5–4.7 l	4.6–4.8 l	4.6–4.8 l	4.8–4.9 l
CO ₂ emissions	104–107 g	104–109 g	105–109 g	109–113 g

Fuel & CO₂ values starts from min. to max., based on transmission
Fuel consumption: [l/100 km]; CO₂ emissions: [g/km]

Key selling points

Full-led headlights

Full-LED headlights with dynamic rear indicators providing all light functions via LEDs consist of three modules, a main LED module for dipped and full beams, and three LED chambers for the cornering and side lights.

Virtual cockpit

The 10.25" virtual cockpit, a digital instrument panel, is an all-new feature for the model. It offers up to five display modes (classic, modern, reduced, enhanced, and sport). In addition to other items, the display can show a navigation map with a close-up bar, filling stations, route length, and driving time.

Wireless charging

The charging box (optional) is a storage compartment that allows for wireless mobile phone charging. In addition, it amplifies the mobile signal, thanks to a connection with the external antenna. As a result, your family or colleagues can even reach you in locations without great signal coverage.

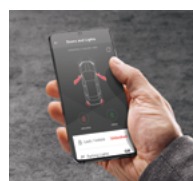

Boot space

The fourth-generation Fabia is the largest Fabia to date. Thus, the boot volume is also the biggest ever – 380 litres in the basic configuration and 1,190 litres with the rear-seat backrests folded down.

Advanced assistance systems

The new Škoda Fabia offers seven assistance system for the first time ever. These are the Travel Assist 2.0, Automatic Parking, Lane Assist, Traffic Sign Recognition, Side Assist, Front Assist with Predictive Pedestrian and Cyclist Protection, and Manoeuvre Assist. All are designed to improve both safety and comfort.

Connectivity

Due to smart phones can be connected Android Auto and Apple CarPlay. The infotainment system will enable you to use many Škoda Connect online services such as eCall (in the event of an accident, it automatically launches an emergency call) and services under the MyŠkoda application that enable you to control the car remotely.

Fuel tank

The optional equipment can really give you a substantial bang for your buck. For the first time, the optional fuel tank volume is 50 litres (10 litres more than standard). As a result, you can travel for more than 900 kilometres with one fill-up! This is a feature you are certain to appreciate when going abroad for holidays.

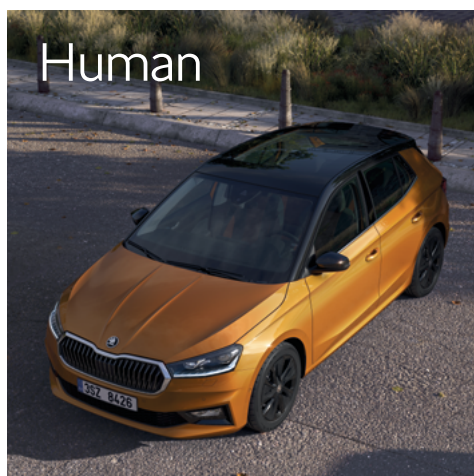

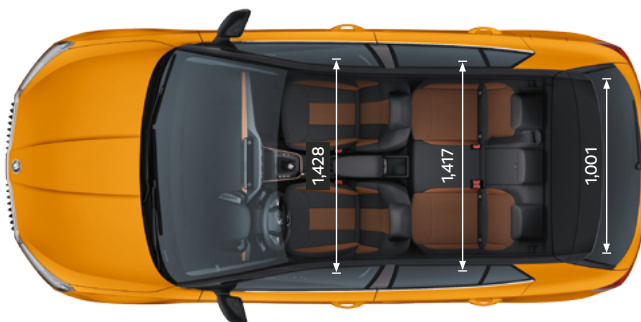

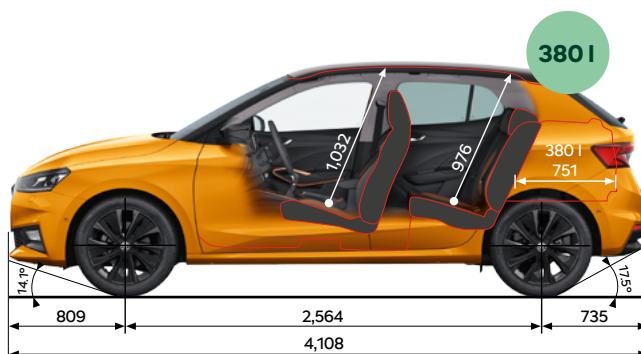

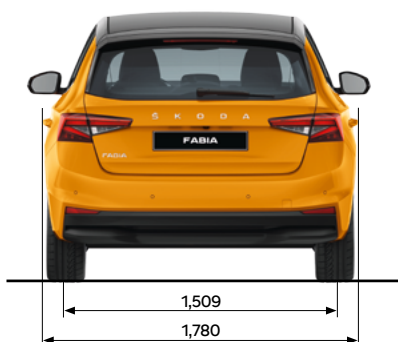

Passive safety

With up to nine airbags, the car is one of the safest in its class. Driver and front passenger airbags, front side airbags, and curtain airbags are standard. A driver's side knee airbag and rear side airbags as well as Isofix mounts for up to three child seats are optional extras.

Connectivity

Dimensions

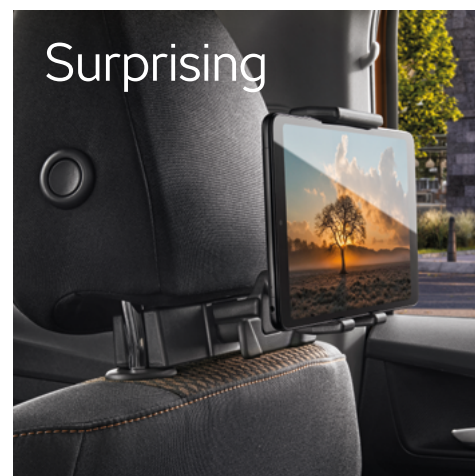

Human

Express your personality. Each of us is an individual, and so we wish everything we own to also be individual. Choose from a palette of colours and add the Color Concept – this will allow you to pick a different hue for the wheels, roof, pillars, and rear-view mirrors.

The optional alarm system with an independent power supply monitors all the doors, the ignition switch, tilt, and the car's interior. The keyless entry so called 'KESSY' enables driver to entry, start and lock the car without having the key in hand or in ignition.

Simplifying

Surprising

Are you going on vacation and wondering how to entertain the children? If you own a tablet, there is nothing easier than adding a practical multimedia holder together with a headrest adapter from the ŠKODA Original Accessories range.
